

WIRELESS POLICY

- The Berthoud Community Library District (BCLD) provides wireless Internet access. BCLD does not provide technical support for wireless users.
- Users need to be aware that the wireless network is not secure. Like many public wireless hot spots, information is not encrypted and is subject to electronic eavesdropping. Wireless users are responsible for providing security for their own equipment and electronic communications.
- By using the wireless network users agree to comply with BCLD policies concerning use of the Internet. (See Computer and Internet Safety and Use Policy)
- BCLD exercises no control over and will not be held responsible for user-supplied equipment or Internet content that users choose to access or create using personal equipment.
- While BCLD strives to provide a quality wireless system, it cannot guarantee the signal quality, bandwidth availability, or general Internet site availability at any time.
